

Tutorial de instalação do mongoDB

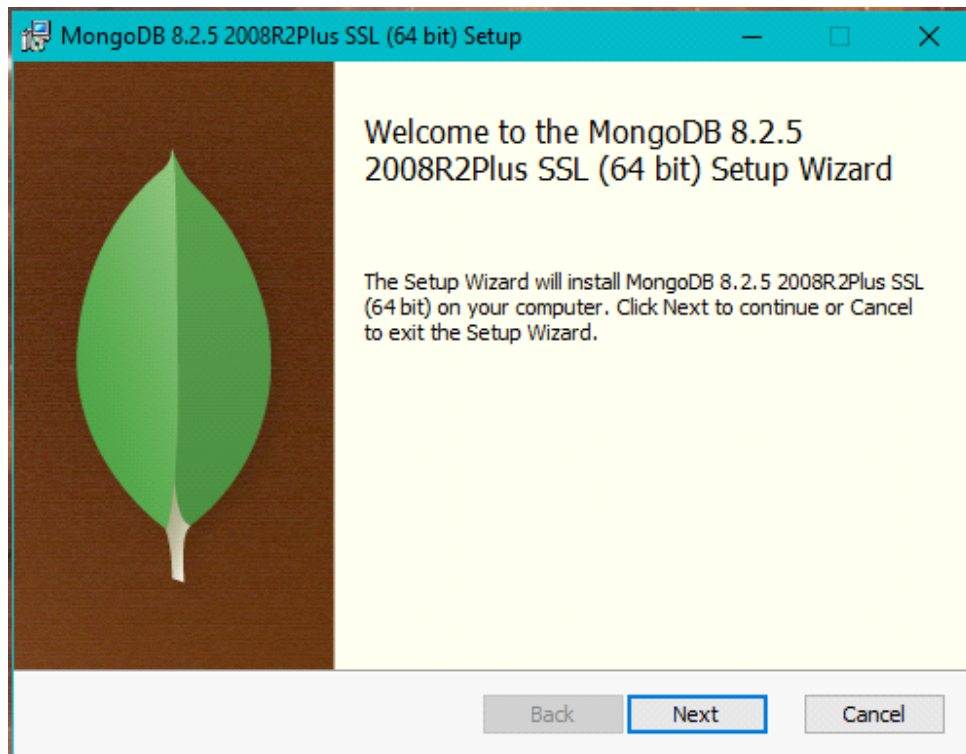

1. Vá ao site oficial do mongoDB:
<https://www.mongodb.com/try/download/community>

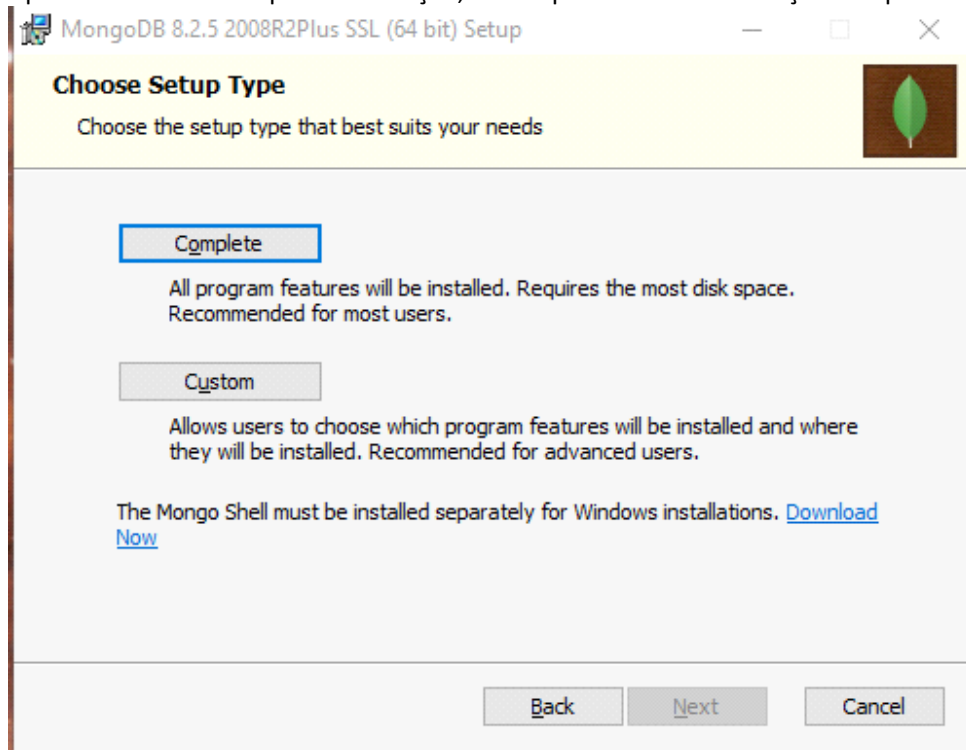

2. Role para baixo até encontrar a aba para dowload do community server. Selecione a versão, a plataforma e o formato do arquivo e clique em download

3. Depois da instalação do arquivo clique duas vezes para iniciar o processo de instalação

4. Após isso escolha o tipo de instalação, dando preferência a instalação completa

5. Nas configuração de serviço deixe as opções que já vem configuradas

MongoDB 8.2.5 2008R2Plus SSL (64 bit) Service Customization

Service Configuration
Specify optional settings to configure MongoDB as a service.

☒ Install MongoDB as a Service
